

DIVA Vireo Data

Each contain:

- lower_pitch_bound.preset
- lower_z_bound.preset
- upper_pitch_bound.preset
- upper_z_bound.preset

- consonant.net --- Consonant network targets, inputs, and outputs.
- consonant.wts --- Weights for each sensor for each target.
- networks.net --- List of networks
- offsets.txt --- Unused in Vireo
- override.scale --- Unused in Vireo
- override.sd --- Standard deviations for each network
- sessions.io --- List of included training sessions
- sound.lnk --- Name of the vowel map
- vcdecision.net --- Decision network targets and inputs
- vcdecision.wts --- Glove sensor values for each target
- vowel.net --- Vowel network inputs, targets, outputs
- vowel.swg --- Vireo: the vowel swing angle - unused
- vowel.wts --- Values for each sensor (X and Y) for each vowel
- .scale --- Min and max for each sensor value
